EVO II **Dual** 640T V3

Power. Efficiency. Reliability.

640x512 30Hz New Thermal Imaging Sensor

Equipped with 640*512 high-resolution thermal imaging camera featuring a 13mm focal length lens and 16x digital zoom, it is easy to observe distant targets. The system uses a new image processing algorithm, making thermal imaging details clearer and more discernible than competition with the similar resolution and hardware.

See a specific subject's identity, activity, or personal items.

- **Detection:** Detect if an object is present.
- **Recognition:** See what type of object it is (i.e. person, vehicle, airplane).
- **Identification:** Determine subject affiliation and intent.

Multiple Temperature Measurement Modes

Central temperature measurement Spot temperature measurement Regional temperature measurement

Central temperature measurement: View real-time display of the temperature in the center area of the screen.

Spot temperature measurement: Tap the screen, and the temperature of the selected object will be displayed in real time.

Regional temperature measurement: Get a dynamic view of the average temperature, maximum temperature, and minimum temperature displayed in a selected area.

Detection

Picture-in-Picture Display Mode

Visual and thermal imagery are combined to help users quickly interpret data and aid in critical decision making.

Temperature Alarm | Isotherm | Image Enhancement

Temperature alarm: Monitors the screen temperature in real time. The system prompts the user when the temperature reaches a set threshold.

Isotherm: Set a temperature range and the system will detect any objects within the temperature range specified.

Image enhancement: Supports real-time adjustment of image brightness, contrast, and image details. The system will highlight any objects within the temperature target.

Powerful Infrared Thermal Analysis Tool

IRPC TOOL: This free temperature measurement analysis tool is developed specifically for the 640T, and enables users to quickly import images, edit and analyze temperature measurements, and generate detailed reports for sharing and collaboration.

50MP Ultra-Sensitive Camera

The EVO II Dual 640T V3's special RYYB sensor features a moonlight algorithm 2.0 that provides excellent noise suppression in limited lighting conditions, further enhancing its 50 megapixel camera to give users more details for better forensics and analysis.

.8" Sensor Size

The EVO II Dual 640T V3's .8" RYYB CMOS offers up to 144%~233% more surface area when compared to 1/2" or 1/2.3" competitors for maximum details in high contrast lighting conditions.

RYYB Sensor Technology

RYYB sensor technology moves away from RGB cameras by offering up to 40% more light sensitivity in low light scenarios.

PDAF+CDAF Autofocus System

Never lose sights of your subjects with a combination of PDAF (Phase Detection Auto Focus) and CDAF (Contrast Detection Auto Focus) technology for fast and accurate tracking.

See The Scene With 16x Digital Zoom

The system supports 16x digital zoom and 4x lossless zoom, providing long-distance image acquisition and detailed insight into scenes safely and without detection.

4K HDR For Greater Dynamic Range

4K HDR automatically balances overexposure and underexposure when shooting scenes with too much contrast, producing clearer images with more layers.

SkyLink 2.0 Video Transmission

EVO II Dual 640T V3 is upgraded with Autel's all new SkyLink 2.0 Video Transmission technology.

15KM

Fly farther with HD video transmission up to 15km.

QHD

Get on-screen QHD video within 1km. Obtain critical details with a resolution of 2560 x 1440 for a total of 3,686,400 pixels—about 1.8x the pixels of an FHD monitor.

2.4G/5.8G/900MHz

Support tri-band communication automatically frequency hop for maximum anti-interference capability.

*900MHz is only applicable for FCC countries.

360° Obstacle Avoidance

Equipped with 19 groups of sensors including 12 visual sensors, the main camera, ultrasound, IMUs and other sensors enable building of three-dimensional maps and path planning in real time.

*Please refer to the manual for details on obstacle avoidance and its limitations, which may or may not work in limited lighting environments, under direct strong sunlight, or across thin tree branches or wires.

Practical And Convenience Features

Deploy Rapidly

Deploy in under a minute.
The EVO II 640T V3 can go from its case to the air in 45 seconds.

No Forced Updates**

EVO II Dual 640T V3 does not need to be on the latest hardware or app version in order to take off unlike other competitors.

No Fly Zones*

EVO II Dual 640T V3 does not have any no fly zones and will not prevent the pilot from taking off.

Non-ITAR

More export freedoms as the EVO II Dual 640T V3 is not under US's International Traffic in Arms Regulations.

* Please fly safely and consult your local laws and regulations. Autel Robotics is not liable for any unauthorized flights.

** It's required to update the latest firmware and app to enjoy comprehensive warranty. More information please refer to warranty policy.

Smart Controller V3's 7.9-inch, 2000nits high-brightness screen is clearly visible even under direct sunlight. SkyLink 2.0 Transmission technology guarantees long-distance operations from up to 15km away and enhances anti-interference abilities with triple band frequency hopping. The customized Android system allows for additional flexibility with 3rd party Apps and an IP43 rating ensures all weather performance.

Application

Line Inspections

Reduce costs, increase safety, and improve inspection workflow.

Firefighting

Locate hotspots, provide overwatch, and shorten response times.

Security

Perform overwatch, conduct forensics, accident reconstruction and crowd monitoring.

Search & Rescue

Identify subjects, reduce response times, and optimize search area with mission planning.

Chemical

Inspect plants more efficiently while improving work safety and lowering costs.

Solar

Streamline the inspection process, discover defects or faulty hardware using the thermal payload.
